

Princeton Center for Theoretical Science presents

Fourth Annual Visiting Lectureship Series, 2014

Professor Michael E. Peskin

SLAC National Accelerator Laboratory, Stanford University

Schedule of Events

All events will be held in Room 407 Jadwin Hall,
PCTS Seminar Room, unless otherwise noted.

Seminars:

4 March

2:00 pm

"What is a "Composite Higgs" model?"

7 March

1:30 pm

"Five-Dimensional Models with Composite Higgs"

10 March

2:30 pm

"Composite Higgs and Naturalness"

Lunch talk:

6 March

12:30 pm

"Precision Theory of the Decays of the Standard Model Higgs Boson"
(Bring your own lunch.)

Physics Colloquium-Jadwin A-10:

6 March

4:30 pm

"Beyond the Higgs Boson: Further questions and expectations for the Large Hadron Collider"

Room: Jadwin A-10

PUBLIC LECTURE

"The Top Quark: subatomic Thor, or just another heavy?"

Thursday, March 13 · McDonnell A-02 · 8:00 pm

Abstracts for all talks can be found at <http://pcts.princeton.edu/pcts>
