

Princeton Center for Theoretical Science presents

First Annual Visiting Lectureship Series, 2011

Sir Michael Berry

Melville Wills Professor of Physics (Emeritus)
University of Bristol

Schedule of Events

Room 407 Jadwin Hall, PCTS Seminar Room

Seminars:

14 February

Seminar: 1:15 pm

Variations on a theme of Aharonov
and Bohm

21 February

Seminar: 1:15 pm

Hamilton's diabolical singularity

22 February

Seminar: 4:30 pm

Singularity-dominated strong
fluctuations

Informal lunch talks:

17 February

12:30 pm

Polarization fingerprints in the clear
blue sky
(bring your own lunch)

24 February

12:30 pm

Tsunami asymptotics
(bring your own lunch)

In addition, Prof. Berry will be giving a public lecture, the Hamilton Lecture sponsored by the Department of Physics, on Thursday, February 17th in McDonnell A-02 at 8:00 pm.

Abstracts for all talks can be found at <http://pcts.princeton.edu/pcts>

Lecture series is supported by D.E. Shaw & Co.
