

Why are the gates down?

Access to the Stadium Drive Garage is managed through license plate recognition (LPR) technology on weekdays from 7am-4pm. As you approach the garage entrance or exit, the gate will automatically open if your vehicle has an active permit. To aid the system, please ensure your rear license plate is visible.

If the gates do not open for your vehicle

Faculty, staff, and students with commuter permits

- To open the gate, tap your active TigerCard on the reader or use the intercom to speak with staff.
- After parking, scan the QR code and log into your [MyTransportation](#) account. Confirm that your vehicle is both registered and connected to an active Zone or Commuting Grad parking permit. *Even rental and loaner vehicles must be registered in your account*
- If your permit and license plate information looks correct, please contact The Service Point for further assistance. Vehicles parked without an active parking permit in the garage may be cited.

Visitors/Guests

- Take a ticket from the kiosk and register for a daily parking permit before exiting your vehicle. Vehicles parked without a parking permit may be cited.
- Visitors can also register for garage access in advance to have the gates open automatically upon arrival. Scan the QR code for more information.

Residential graduate and undergraduate students, non-permitted contractors

Not eligible to park in the Stadium Drive Garage on weekdays from 7am-4pm, even with daily permits.

Daily permit usage is monitored and you may be cited.
